## Cocktails in Paris

Al fresco drinks are on the menu in the 7th arrondissement of the French capital.

To take advantage of the end of summer Le Gloster bar has set up an outdoor area where cool cocktails can be enjoyed while watching chic Parisians go about their day in the affluent 7th arrondissement. The cocktail menu includes classics as well as more original creations including Purple Rain, made with Absinthe it promises to electrify your cocktail hour. The very friendly staff are also more than happy to mix something special if the signature cocktails do not tickle your fancy.
